January 2014

Dear Breeder,

As you may, or may not, be aware the Irish Parthenaise Cattle Breed Society has AI straws available for sale.

The popularity of the breed is growing year on year which is borne out by the fact that AI stations in Ireland are stocking more and more Parthenaise Bulls. The AI stations have bigger purchasing power than the Society, which means that they can sell straws at more competitive prices but they will have less variety as the Society can import directly from France. The Society has access to many different French bulls all of which have top class genetics.

The Society has a List of bulls available (attached) along with their respective prices per straw. An Order Form is also attached. Furthermore, the Society has an existing stock of straws which are shown on the attached List.

The Society recommends three bulls as easy calving:

- **Coquin** - Tried and tested bull;
- **Richelieu** - Tried and tested bull; and
- **Echire** – A new bull which has exceptional figures.

The Society also has a sexed semen bull named Hinault, which is available at a cost of €55 each for 5 straws or less, or €50.00 each for 6 straws or more. So if you wish to order straws for the coming year, please do so now as this is the only order being made this year.

Going forward, the Society will only order semen which has been prepaid which will guarantee your receipt of straws that best suits your needs.

**Therefore, we would ask you to complete the attached Order Form and return it with a cheque made payable to the Irish Parthenaise Society, to Roy Stoddart, Ballycrissane, Ballinasloe, Co Galway by 1<sup>st</sup> February 2014.**

**This is the only way that you will be guaranteed to get your stock of semen.**

If you have any queries do not hesitate to contact me on **(086) 083 9306**.

Roy Stoddart, Semen Distributor
